INFORMATION DISCLOSURE STATEMENT

Dear Sir:

- 1) Pursuant to 37 C.F.R. 1.56, 1.97 and 1.98 applicants enclose a Form PTO-1449 and make of record the documents listed thereon. A copy of the English version of the International Search Report issued in the counterpart PCT International Application on November 20, 2003 is enclosed. A copy of reference AD and English Abstracts for references AC to AE are enclosed. Copies of references AC and AE are not (and need not be) enclosed, because they were transmitted to the USPTO by the International Searching Authority in the International processing of this PCT Application.
- 2) This statement is being filed concurrently with the above identified new PCT National Phase Application.

- 3) References AA and AB are in English. English Abstracts for references AC to AE are enclosed. References AB, AD and AE have been discussed at page 1 of the specification. References AC and AD correspond to AA; and AE corresponds to AB; from which the relevance can be determined in English. Therefore, no further discussion of the references is required.
- 4) Moreover, the enclosed Search Report indicates the degree of relevance of each of the references AC and AE by category (A = technological background). Thereby, a concise explanation of the relevance has been provided (see M.P.E.P. §609).
- 5) The Examiner is requested to consider all references of record, return an initialed copy of the enclosed Form PTO-1449 and ensure that all references of record are printed on any patent issuing from this application.

Respectfully submitted,

Konrad KAPSER et al.
Applicant
